ABOUT THE EXPERT INSTITUTE:

The Expert Institute was founded with the objective of developing a smarter way for attorneys to identify, verify, and retain the best expert witnesses.

Every litigator - from AmLaw 100 partners to solo practitioners - once relied on outdated and inconsistent methods for finding expert witnesses. The Expert Institute deconstructed the process of finding experts, and built a data driven platform that could adapt to the demands of any case. They combined that technology with a team of skilled legal researchers and developed a system that delivers a perfect match, every time.

Having partnered with over 3,000 firms, both globally and in all 50 states, The Expert Witness has gained unparalleled insights across all aspects of expert witness recruiting. Their mission is simple - to help their clients be better advocates by providing them with access to the best expertise.
